Great Top, Beautiful Color

#1 · Amazon · ★★★★■ · Reviewed in the United States on October 8, 2025

I really like this bikini, but I had a sizing issue with the set.The color is fantastic and exactly as pictured, which I appreciate. The top fit perfectly—as a 34D, it was supportive and fit exactly the way I wanted it to.However, the bottoms were definitely too big for me, which was disappointing. I recommend buyers keep this in mind when ordering.

Cute Suit and Comfortable

Comfortable swimsuit, bright orange like the picture shows. The high rise of the suit did come up as high as I thought but it still does a good job with tummy control. The material doesn’t seem quite like what I was expecting. The cupping of the top holds up nicely but it was poke me in the side after wearing for half the day. All in all I would probably buy this suit again.

Cute & Comfortable.

I LOVE this swimsuit!! I’m 5’2, 105 lb., & I bought a small based on some of the reviews. The ones that actually have useful info anyway! lolIt fits me better than any other swimsuit I’ve ever had! It compliments all the right areas, and the bottoms are comfy & not too ‘cheeky’. And a great price too!It seems well made, but I just got it today, so I’ll amend if any issues come up.This is a good suit for mom’s. It’s comfortable, great tummy control, attractive without being overly revealing, and the perfect price point. (Don’t mind my daughter’s dirty ahhh room lol) I definitely recommend!!

Headed on a beach trip with my husband without the kiddos. He said he'd like to see some skin. Precious man. I went to target and came home crying because things dont look like they used to and I didnt want to embarass myself at the beach. I ordered this two piece in the bright yellow/green color and it was super flattering. I felt much more confident but still kind of sexy. Im thinish now but I dont pass up chocolate, dessert coffee or tacos and you can see that. Ive had two kiddos and I didn't lose the mom pouch after the second baby. This swimsuit came just above my belly and covered nicely.Stats- 5'6, 147 lbs, 32ddd*I typically wear size L in VS panties & size 6/8 in other garments. I think I was at the max for the bottoms. If I put on a couple more pounds, I think I would have to get a L.* Same for the top. It fit snugly as it should but at a 32ddd, I felt like the cup was a little tight. Not terrible though. There is also a good bit of padding and it felt a little heavy when I got in the water.Overall, I loved the suit. I loved the color. I loved that it was in between "total mom gear" and "what I wore when I was 20." Im 37 and not dead. ■

Great top!

May not be the best fit for boxy-built ladies

My build: I am boxy with a short torso 5'5 ft and am currently 130 lbs, with a solid/athletic build. I'm small chested: A 34 Aish-Bish, post kids.I'm still trying to learn my new body after children. I don't want to knock this suit too much because some of my biggest problems really may just be unrealistic personal expectations and my specific build. I'm at a year and a half (ok, almost 2 years) out from having had my second bambino. Following that pregnancy, I have a delicious leftover herniated belly button, loose skin, 10 lbs that refuse to come off, a few stretch marks, and a mama bear crease. So ordering this suit was an attempt to basically have a glorified one piece that covered all that hot mess, maintained some modesty, and helped me stop looking like I was on my way to a swim meet in my mom-speedo.I typically wear a small now with some M and some XS depending on how the clothes run. I was a pretty solid size 0-2 XS and 32 A, before kids, so if you're built similarly and, like me, are still struggling to figure out your new sizes and body after kiddos, this may help. I ordered the small. The top is big. My nibblets definitely do not fit the cups, but it's made in such a way that no one would know, and it doesn't gape open.The bottoms are my biggest issue (with my build). I feel like I may need medium bottoms. They're a bit snug and are uncomfortably tight but are still workable-ish. But if anything, I feel like I need an XS top. So I'm a little perplexed on returning or not.Perhaps this will help my fellow boxy, small chested sisters. If I could go back, I probably wouldn't have ordered this suit, and checked out one in store where I could mix sizes. I could see how with the right build, this could be a really great suit for some though ■Also, the material is not too thin.Good luck in deciding!

Great for slender well endowed women....adjustable in so many ways!

#19 · Amazon · ★★★★★ · Reviewed in the United States on March 16, 2026

Beat bathing suit I have ever owned! As a slender, well endowed woman I always have trouble finding a bathing suit with support that actually fits properly. I took a chance with this one and so glad I did! The bottoms are high waisted with great support to disguise my not so flat mom belly and the top has a tie so you can tie it as tight or as loose as you would like and the band around is adjustable (like you would find with adjustable bra straps) This was a big game changer for me because most bathing suits I get to fit my cup size are way too big around. I would definitely suggest this for any slender, larger breasted women who have trouble finding a top that fits. I even went back and ordered more in different colors!

Read in order of date. Scroll down first.(I will keep updating)April 4, 2023I received my second choice bikini... looks exactly like the picture. I was excited... but guess what? I ordered Medium and they sent Medium bottoms

and A LARGE TOP ■! The other one fit perfectly and wasn't the right color and this one just plain and simply isn't the right size. Back to the UPS store! Third time's a charm right?(For those of you wondering why I keep ordering from this vendor it's because I spent way too long trying to find one I liked and if they'd just get it together it WOULD be perfect!)Needless to say they lost another star ■April 2, 2023I'm giving 4 stars because I'm extremely disappointed... I ordered the coral-pink and it is not that color, it's coral-ORANGE. So think twice before you purchase that color. I have a bikini that color already and really wanted what was shown in the picture when I purchased it.Besides that the fit is exactly what I wanted (Purchased medium. Bra size 34B) so it gets the stars for that. But the fact that I now have to go to the store and return it is inconvenient and wait for a different bikini to come when it's not the one I really wanted it doesn't deserve the other star.

Sizing is a bit off

#24 · Amazon · ★★★■■ · Reviewed in the United States on June 22, 2025

Why did you pick this product vs others?:Sets are always hard for me because I’m usually a large in bottoms and medium in top. I always order the medium bc some medium bottoms will fit but a large top will never fit me. The bottoms were snug on me so I would say true to size for a medium but the top was way too large. Too large even for a medium.

Size up for true fit

#25 · Amazon · ★★★■■ · Reviewed in the United States on July 9, 2025

I was a little disappointed in the quality of the bathing suit. The size is actually smaller than what is advertised. I was expecting the bottoms to be high waisted, but they didn’t come up as far as I wanted. I also didn’t like the metal clasp in the back of the top. I returned it to Amazon the same day.

Read this if you’re considering polka-dot

#30 · Amazon · ★★★■■ · Reviewed in the United States on May 2, 2021

For reference, I’m 5’7”, 170 lbs, and measure 40.5/33/43. I ordered both the large and XL in this suit, and the large fit much better on both top and bottom. Overall the suit was cute and fairly flattering. However, I’m returning them due to the lining of the bottoms; the front of the bottoms is lined with black material while the back (butt) of the bottoms is unlined. The printed, polka dot material is solid white on the backside, so you end up with solid black lining on your front and solid white lining on your butt, which makes the bottoms look like two different shades of black. At worst, it gives the appearance that the butt is stretched to the point of being thin. The dots also stretch if you have a booty. Not a good look. Also, there is much more torso skin visible between the top and bottoms as compared to the model. Just a heads up. The front band of the top is not going to lie flat for larger-boobed gals, but is going to roll under and be hidden by your girls. Even so, the top was cute, and I liked the retro feel of the suit. My boyfriend said it reminded him of Wonder Woman, so if you want that look, buy this suit. The price is amazing for what you get though. I’m ordering it it solid black instead.

Horrible

#31 · Amazon · ★■■■■ · Reviewed in the United States on June 28, 2025

I received this while on vacation and forgot about it. Just tried it on today. Return window closed 2 days ago. I say that to say, if I could return it, I would. If you're more than a D cup, this top won't even cover you much less hold you up. It looks ridiculous on. Somehow, the top is too big and too small at the same time. And ZERO support. I actually got out my measuring tape and ordered by the measurements on their guide. For reference, I'm 5'8", about 170 lbs, 34DDD (or 36DD, depending on brand and type of bra). So, after all that, if you still order this, I don't know whether to tell you to size up or down, but the suggested size is not accurate. The bottoms, are high rise, which is great. But they provide little coverage for your backside. Bottoms of this style usually at least cover like a hipster panty. These seem to want to be a thong. The only good thing I can say is the adjustable band along with he tie around the bottom of the top could have been an amazing design for support if it had been designed and placed better.

I hate it

#32 · Amazon · ★■■■■ · Reviewed in the United States on July 15, 2023

I love the sage green color but absolutely haaaaaaaate how this fits. I’m a 36B and normally wear a 10 in pants. I ordered a Medium based on the sizing chart. The bottoms were too small to wear, and the top fit properly for the most part, but there’s no underwire and just a stiff foam shell. It does that thing I hate when there’s a gap of space—like, the cups don’t actually fit around the boob in the middle and so whenever I sit down or lean forward, you see the inside of the top. And when I’m just standing normally, I feel like I’m wearing fabric in the shape of someone else’s chest on top of mine. It’s so uncomfortable. I have no idea what these people are talking about when they say it’s supportive. I feel so awkward and unsupported. If I tie it tightly to minimize the gapping in the middle, the cups end up on top of my boob instead of cupping it. I hate this bathing suit.

LOVE IT!

Update: After wearing this approximately three times, it began to peel and bead up on the bottom and backside of the bathing suit. I still like the suit, but I would just use cautious of what type of surface you sit on.I absolutely love this suite! I am almost 50 and not particularly comfortable wearing a two piece anymore. The bottoms on

this suite are great at hiding my 25 year old baby belly. The top is nice as well. I appreciate that it has tie straps and an adjustable strap. The best part is that it doesn’t have those annoying removable pads that fill with water and then get lost in the wash! I am ordering it in another print as well. I am 148 and a 34DDD. I ordered it in a medium and a large. I could squeeze into the medium, but I definitely needed the large; much better fit. Great suite!!!

I didn’t notice till I got home and showered and seen pink on me. I went to go check the wet clothes bag and everyone’s stuff that was next to it got stained as well.I washed it alone again, and placed an old towel that I didn’t care about to test it along with it. The towel came out pink. I don’t think I’m able to use it ever or wash it with anything else. I don’t know how this could bleed after so many washings.This swimsuit ruined a lot of my family’s clothing and ending paying more money by destroying other clothes.

Wrong style and not a good one

I ordered two of these in two different sizes because I didn't know what size I would be. The smaller one arrived first. It was the correct color, but the wrong style. It was a one piece suit with a ruffle around the collar. That is not what I ordered, and it was not flattering.The larger one came second. It was the correct style. However, with the three straps, I needed help putting it on. Even then, the cups did not stay flush with my skin on the side, so people would have been able to see inside my suit around my breasts. Obviously, I sent it back. I kept the smaller one because I really needed a suit in that moment, but I was not happy with the style or the service.

My husband actually loved it, and I felt secure in it so I can go down waterslides without something popping out. The only thing I could see being a problem is if you have a different size top and bottom because it comes as a set, but it’s totally cute. For reference, I am 140lbs, 5'5", and a 34C, and I felt like the small was a tiny bit tight, but the medium was too loose, so I opted for the smaller size. Highly recommend, and I might get another color for the summer!

What tummy control??

#70 · Amazon · ★★■■■ · Reviewed in the United States on March 26, 2026

Not sure how there are so many “snatched” comments but this swim suit has no tummy control, other than simply being slightly higher waisted. It’s not reinforced in any way, it’s just regular swim suit material… I’ll keep looking for bottoms but may keep the top as it is fairly supportive. I’m 7 months postpartum and taken pics from the side so you can she the lack of “control”. I’m 5’4 and about 150lbs. I got the medium and it fits well, the top is cute. The strings on the side are pointless.

Very poorly made. I do not recommend this bathing suit.

The high-waisted bottoms are flattering and provide good tummy coverage, which made it feel comfortable and a little more supportive than some other bikinis I've tried.The material feels soft and stretchy, and it seems well made. It doesn't feel cheap or thin, and the fabric has enough stretch to move comfortably without feeling too tight.The top is cute and stylish, but if you have a larger bust, you may want a little more support depending on the fit you prefer. Bought the turquoise (Green Blue or whatever it's called). For reference, I'm 5'2 and 194lbs and bought an XL (as Amazon recommended). I'm built like a teapot (short and stout) ■ The swimsuit itself is cute. I've got more booty than I do boobies, so the top itself had some space in the cups, qnd the bottoms were a little bit snug, but

not uncomfortable. There's not much "ruching" on them either. If the top was fitted more like the bottoms and vice versa, it would've been perfect. I've been trying to get out of my comfort zone so that may be why I'm a little weird about it. Husband totally approves though ■ This is the most revealing suit I've ever had. He told me, "Honey, there are bigger women that have SO much confidence and here you are wanting to cover up most of your body and not showing it off. You deserve to show it off. You're beautiful!"

The top isn't tiny it has a few extra inches just what I wanted as I barely want to show any mid riff. The bottom comes up over the belly button and is tight so it snatches your gut. Overall I do recommend this product, and I am 5'0 ft tall, 195lbs and a Large fit perfectly. it is true to size.

overall after trying on a ton of swimsuits this one is by far my favorite. I like the vintage look of the top and support it gave, but I wish it had been more adjustable. The problem is that it clasps in the back and does allow you to tighten it a bit, but I'm a 32DDD and I ordered the M which would've been perfect if it was all a tie back option vs a clasp. The bottoms were a little snug and I actually hate the weird ruched aspect on the front. I just think it doesn't lay right, but I love the pattern. Wish they would sell tops and bottoms separately. If you're looking for a cute high waisted option that's slightly more modest this is the suit for you!

I wear size 4-6 bottoms and these sag, so I feel like I'm wearing a diaper…. I bet if it was made like the control top bottoms it would have fit better but we'll never know. The ONLY reason I gave 4 stars is because the bottoms will be wasted in the purchase… If they provided an option to mix match I would have given 5 ■.

PROS: Full coverage bottom, cute pattern.CONS: Can't buy separate sizes/Cups big for my A-sized chestI'm gonna ride the wave of body positivity and post this out there for all my fellow Amazon shoppers. I read reviews and feel I need to do my duty and share. I have high expectations with a swimsuit and have been searching for a replacement for my five-year old old trusty black bikini. I swim at least once a week in the summer/take trips to the beach twice a year, and hot tub in the winter. I need a good swimsuit. I've been looking for three months now, both online and offline in economical price ranges. I found that what is the trending is to show the booty cheeks? I got ample roundness back there and can't stand to have much cheek showing. I feel naked! So I took a chance on this 'full coverage' bottom.First, let me say, I'm a pear. I'm always hesitant to buy when you can't pick separate sizes for top and bottom. In pants/dresses I wear size 10 bottoms, XL or L on yoga

pants/shorts/bathing suit bottoms. And up top, I'm a med/or 36A. I followed the sizing guide, and got a medium. AND PRAYED.I have to say, the bottoms fit very nicely. I squish the front band down a little, as with it pulled all the way up, shortens my torso and makes me look a little chunkier. The top fits snugly around the chest(band), and the cups are a little big, but I won't be falling out, and the coverage is ok. I feel like I can swim laps, splash around, and even take this into the ocean and down waterslides without slippage or whoopsies.I was worried when I opened it up and saw that it was only lined on the front. But after a quick dunk in the pool, the fabric opaqueness holds up.This is the third swim suit I've ordered from amazon- and the only one I won't be returning. (for reference the other two were cupshe and angeleralla in same price range of $30). I just hope to lose a little weight up top, so that it's not so tight in the around the band.

#120 · Amazon · ★★★★■ · Reviewed in the United States on May 7, 2024

i typically run a L/XL for swimsuits, in this one i ordered an XL and possibly could have gone down. my bust is a 38DDD and the clip band on the suit is adjustable and there is a tie as well but both bands are made w loose "unsturdy" fabric so tightening affect is minimal. The cups i could not have sized down in but they seem to have plenty of room in the outside area to shove the girls into, just no way to keep them w the structure that is present. My biggest complaint would be the longline band under the bust, no structure to that al all so w every movement it rolls up, would be nice if it was double layered or maybe had some grip strip to keep it down (i might try to add something like this to it). Bottoms fit nice and had some tummy smoothing effect. My biggest peeve in bottoms is when they put all the control in the top and bottom bands and you look like a sausage, this suit DOES NOT do that, coverage and control is very consistent.

#126 · Amazon · ★★★■■ · Reviewed in the United States on July 24, 2025

Bottom piece of this suit fit great, comfortable and flattering, but I'm returning because unfortunately the top piece did not. IMO, the top piece needs more adjustability, or I'm just supposed to have broader shoulders/chest or something instead of petite proportions. Only the shoulder straps adjust like a bra, while the cut of the top with the foam cups inside was too wide set or something, like my boobs should have been much farther apart for the cups to cover what they're supposed to. Also, the long, snug, solid band at the bottom of the swim top along with no back closure made it hard to get in and out of and gave me an upside down "muffin top" at the top of my abdomen even though the swim bottoms smoothed the lower part of my abdomen. Made

me wish I could get these swim bottoms paired with a matching top constructed more like a traditional style bikini top with adjustable ties or fasteners in the back. Giving three stars because just half the suit fit well and performed as described.

Such a cute two-piece! I have gained some weight from Perimenopause and needed something that tucked everything in. I ordered both a small and a medium and ended up keeping the medium as it felt a lot better in the top. For reference, I am 140lbs, 5'5", and a 34C, and I felt like the small was a tiny bit tight, but the medium was too loose, so I opted for the smaller size. Highly recommend, and I might get another color for the summer!

3.0 out of 5 stars Great Style and Coverage, Bad Quality Fabric

Pros- The bathing suit was very cute, and it fit very well! It was high-waisted with a good amount of coverage, supported well, and had a flattering cut. The color and pattern looked just like the images. Cons- After just one wear, sitting in a concrete pool, the fabric on the bottoms pulled out a little bit, and it gave it almost a fuzzy look, and they were no longer smooth. That being said, it makes me question how long the longevity and durability of the swimsuit will be. Considering I paid $30 for it should have been a bit higher quality of swimsuit.

On the positive, the items are true to size and the bottoms' style and fit match the pictures. However, the color I received (dark red) was not as pictured or described (purple). Also the bust has flimsy and dented padding, so the top fit is a little wonky. I think I can make it work by swapping out for better cup padding. I decided to keep it despite the issues because of the price point. I would not recommend this for bigger busted women.

I am 5’8” tall, 220 lbs, 38F bra, size 16 jeans. After reading through several reviews, I ordered a size 18. The bottoms fit perfect but the top was way too big. I tightened the straps to the top of my shoulders and it was flimsy and floppy. The top is poor quality and not supportive. I’m likely going to return and order the 16 just to try but I don’t have high hopes of this being supportive to my chest whatsoever. It has removable inserts on the top which is always a red flag for poor quality swimsuit top in my opinion. The color and style is cute but for something so low quality, it should’ve been cheaper than $40 to be honest. ***Update*** I ordered the size 16 to try. The top was still too big (on my 38F chest), and the bottoms fit ok… the waist band was a little tight for my comfort. This honestly is just a cheap, crappy suit. I wouldn’t recommend it.

The fabric is very nice and the detailing is so cute. I am not returning because I’m in love with the top. But the bottoms are a no go. Knocking it down an extra star for the free floating removable pads, not a fan of that. I was super excited to try this suit based on the numerous glowing reviews! However, for me, it was a big NO. Amazon suggested a size 14, but based on many comments saying it ran big, I ordered a size 12. I wear a 12-14 depending on the suit, so a 12 seemed logical to me. I'm a 38DD. The bottoms were fine, but the top was awful. While (trying) to get the top on I could hear the seams "pop". You would expect them to have some stretch and give. It's not like I was trying to squeeze my size 12-14 body into a size 8! I found this suit to have no stretch. The material didn't feel like normal bathing suit material. Based on that, I opted to return it and not try a larger size. Plus, if the size 14 top fits then the size 14 bottoms would be too big. Honestly, I'm not sure if even the 14 top would have fit. I had at least 1/4 of my left boob screaming for help and the right boob didn't look super stable.

When I first put this bathing suit on I loved it. It was bright and beautiful and being plus size nice bikini options are limited. I am a firm 22 in pants the bottoms fit well but the top offers little support so if the girls aren't perky all on their own it is going to show the sag a bit. The band on the top is wider and because of that the band just rolls. The bottoms are FANTASTIC. Very flattering bottoms and comfortable. I would still likely order this again in a 20 instead of the 22 solely because of the top. The worst thing about this swim suit I will say is the bleeding of the color. It hasn't faded but it did bleed onto other clothing items when washed and when it sat too close to my daughter's swim when hung to dry in the sun. I will say most things it bled onto have washed out those without elbow grease. I just wonder how long this will last. I've washed it 4 times and hung to dry once in between washes.

I was not too concerned until on day three, my husband noticed obvious (see pictures) fading and bleeding lines of dye on my suit. I did not wear the suit in a pool, only the sea. Each day after wear, it was washed out with mild soap/water, not twisted or wrung out, and hung in side to dry on a line. I had to return because once I was dry, all the sand that was stuck would be all over me. Not ideal for hot Maui weather and personal hygiene.

2.0 out of 5 stars UPDATED REVIEW: Don't buy pink!

UPDATE: Changed to 1 star. I should have reviewed this after I wore it more. I only wore this suit 3 times and it is completely discolored. The first time was a pool and I noticed there were a few areas that turned to purple. After wearing it to the beach twice, it looks awful! Blotchy and faded. Definitely not colorfast material. It's too bad because I loved the cut and color. Super flattering! Going to try the black. Initial review: It looks JUST like the photo. The material feels like a nice quality, the fit is comfortable and flattering. Definitely check the size chart before ordering. I almost ordered the 14 but after checking my measurements I sized up to a 16. I am a 38 F/G on top and this top is the PERFECT fit. Gotta keep the girls secure!

I wanted to like this bathing suit so much :(I had read so many reviews that were encouraging, but unfortunately, for me it was not the case. The bathing suit was not a good fit for my body and did not make me feel comfortable. It was a little too big on the top and just awkward on the bottom. Also, the color was more of a highlighter orange than the orange on the product picture. I posted a picture next to other orange items for reference, I put an orange shoe and an orange suitcase that more closely resemble to the color on the product image. That is the color I was hoping to get. The bathing suit that arrived was sooo bright and fluorescent.

#204 · Amazon · 1.0 out of 5 stars · Reviewed in the United States on May 17, 2024

It fit nicely when tried on over under where, however, it is completely unwearable due to the strong off putting smell of the material. There is a smell of burnt hair or plastic that just won’t go away even with multiple washes and using vinegar and other cleaning methods. I really wanted to be able to wear this bathing suit for a trip I was going on so I tried to wash it to get rid of the smell and I ended up missing my return window. I would not recommend this swimsuit to anyone who has a nose and working sense of smell, and even if you can’t smell I would still be concerned about why the smell exists and won’t go away.

If you need support...this bikini top is NOT it. I am a 46DDD, and got the 26w. This is a flimsy made top that is nothing more than thin stretchy fabric with zero support of any kind. Your boobs will still look like where gravity keeps them when you aren't wearing a bra. It is very unflattering. The fabric is thick enough to hold everything in place but still soft and stretchy, allowing for comfortable movement whether swimming or lounging. The swimsuit's design is stylish and modern, with clean lines and a flattering cut that enhances curves while hiding problem areas. I also appreciate how well it holds up after multiple washes — no fading, pilling, or losing elasticity. Size:S H-5’4 W-119 Chest- 34A My typical swim suit looks like swim shorts with a baggy tank top. I don’t wear bathing suits in public due to my own insecurities and I’ve never been able to find a one piece that fits right and wouldn’t dare a two piece with my 2 time C-section tummy. BUTTTT I LOVE this set!! The bottoms come up just below my belly button and keeps all that not so flattering stuff hidden, covers my butt enough so that I’m comfortable but yet still feel sexy to a point. I love how the top offers the neck tie and the extra tie that goes in the back (or wherever you want it). That gives even more coverage without making it boring if that makes sense. It also doesn’t ride up the crack when you walk or swim. It’s hard for me to find tops and bottoms that are the same size and both fit! My chest is smaller than my bottom. If you have a mommy belly or insecurities in that area in general, I highly recommend trying this bikini!! I plan to order a few different tops as well to go with the bottoms. 10:10 would order again!!!

#248 · Amazon · 5.0 out of 5 stars · Reviewed in the United States on February 25, 2024

I have never seen myself as someone who would wear a bikini, even after losing a considerable amount of weight. This bikini changed all that! This bikini manages to be both flattering and modest enough for me. The bottoms come up over my belly button, so they are high enough to cover my stomach. The leg openings hit at a flattering spot on my thigh, without being too low or too high. The top is both fun, flirty, and flattering. The deep, V neckline accentuates the chest without being too revealing. The straps are super cute and fun but also help add coverage. While the bra cups are not sewn in, they are well shaped and positioned. The material used to make the suit is thick, and appears like it will hold up well. Cons: The buckle on the back of the suit is a bit awkward to fasten and feels like it could potentially come apart easily. It isn't so bad that I am going to return the suit but it definitely could be improved on. The straps in the back also have a tendency to roll down further than where they are placed. The cuteness of the suit makes up for these minor negatives, and I look forward to hitting the beach with it soon!

This bathing suit was super cute and sexy all in one. The adjustability of the tie straps on the top of this suit was a plus. It gave me the control I needed to make sure my chest was supported and comfortable at the same time. The bottom of the suit had just the right amount of compression in the tummy area to make me feel confident while wearing this suit after having 4 kids. The material quality and thickness were spot on. I do recommend washing it in hot water before you wear it because the super bright pink does bleed a little. Your white beach towel will thank me for that lol. I think that's to be expected though, with a bright color like hot pink.

I ordered an XL because I was afraid of it being too tight. I could have gone with my normal size which is a L. So I would say it runs true to size. It was little big in the bottom area which caused some excess material to bunch up when wet. The top was too big on the cup area even when tied tight. The clip in the back is not adjustable and clips together weird and afraid it would come apart quite easily if not careful. I just sat in a hot tub and pool when wearing it so I wasn't moving much. It's a beautiful suit and comfortable. I would recommend.

The bathing suit has a flattering style that enhances my figure nicely. However, I encountered an issue with the sizing. The measurements suggested that I get an extra large, but it turned out to be way too big, especially in the chest area, though the bottoms were also slightly loose. I recommend checking your measurements carefully and if you find yourself on the borderline, perhaps consider choosing the smaller size for a better fit. Overall, it's a beautiful bathing suit with a flattering design, but be mindful of the sizing.

I ordered a medium and it fits perfectly. Everything about this suit is flattering. The ruching nicely accentuates my hips and waist while minimizing my tummy. There's enough coverage in the back to not feel like my cheeks are hanging out but it's also not too much! I love the higher thigh line, again so flattering and gives the look of longer legs. The top has nice coverage and support and I feel like it would fit a good variety of people and body shapes. I ordered the

This is my first bikini ever and I’m happy with it overall. The bottoms are the perfect height and fit well around all the right places, and are very flattering. I have mixed feelings on the top. I like the criss cross look and halter neck, but it makes my chest look even smaller as there’s no support or boost, just flattens like a sports bra would. If you have a larger cup size, I imagine this would be very flattering and supportive with the adjustable ties. I bought a medium and it fits well, I’m a 36b/c and size 4 bottoms for reference.

The reason I gave four stars is just because the elastic on the bottoms runs right along the top so it’s just not as comfortable as I’d ideally want. Do I like it so much? Yes. I like it enough I’ll order it in black so I can mix and match this cute green one!

This suit was super flattering. The only reason I gave it 4 stars instead of 5 is the clasp on the back is very hard to figure out. I thought at first it might be defective but I think it just needs a second person to hook it together. It makes me alittle nervous like it might come undone. Having said that, I love the style so much I may just have

4.0 out of 5 stars Flattering High-Waisted Bikini with Good Coverage

#343 · Amazon · 4.0 out of 5 stars · Reviewed in the United States on March 7, 2026

I really liked this swimsuit overall. The high-waisted bottoms are flattering and provide good tummy coverage, which made it feel comfortable and a little more supportive than some other bikinis I've tried. The material feels soft and stretchy, and it seems well made. It doesn't feel cheap or thin, and the fabric has enough stretch to move comfortably without feeling too tight. The top is cute and stylish, but if you have a larger bust, you may want a little more support depending on the fit you prefer. For me it still worked, but that's something to keep in mind. Pros: • Flattering high-waisted bottoms • Comfortable stretchy fabric • Cute color and design • Good tummy coverage Cons: • Bust support may vary depending on body type Overall this is a cute and comfortable swimsuit and I'd definitely wear it for the pool or beach.

3.0 out of 5 stars Great bottoms, odd top

#346 · Amazon · 3.0 out of 5 stars · Reviewed in the United States on July 24, 2025

Bottom piece of this suit fit great, comfortable and flattering, but I'm returning because unfortunately the top piece did not. IMO, the top piece needs more adjustability, or I'm just supposed to have broader shoulders/chest or something instead of petite proportions. Only the shoulder straps adjust like a bra, while the cut of the top with the foam cups inside was too wide set or something, like my boobs should have been much farther apart for the cups to cover what they're supposed to. Also, the long, snug, solid band at the bottom of the swim top along with no back closure made it hard to get in and out of and gave me an upside down "muffin top" at the top of my abdomen even though the swim bottoms smoothed the lower part of my abdomen. Made me wish I could get these swim bottoms paired with a matching top constructed more like a traditional style bikini top with adjustable ties or fasteners in the back. Giving three stars because just half the suit fit well and performed as described.

For reference I’m 5ft 4in and 144 pounds. I bought a Large because I’m bigger in the chest area and I read to size up. Went on a mini vaca and wanted a new bathing suit. I bought this last minute on same day delivery and was super excited . I was amazed at the thickness of the material and how well it held up my top part with the halter top design. I’m not so big on top but after kids and breastfeeding well you know. I’m very happy with the lift this provides on top but not sure why the back doesn’t have a clip as it did become a bit harder to take off when I was wet and sunburnt. The bottom fits well but the contrast lace design is a bit more snug on me for my bottom and since the top has the lace too it kinda scrunched my back fat all in one place. At first I was like “ my back fat looks worse than when I’m Not wearing anything” but then with some adjustments and stretching , I literally stretched the material to be wider, it fit a lot better. Makes me wonder if a size bigger would’ve benefited but all the other parts fit great it was just that one spot on the lace that felt a bit too snug. It covers your bum but it’s not granny bottoms either. I would call the style conservative with a retro flare and the color contrast makes it way cuter. I felt comfortable diving into the pool knowing everything was secure and would not fall out of place or fall

off for that matter.

After losing 40 pounds over the past year one of my goals I had was to feel confident enough to wear a bikini again and let me tell you I didn't think I'd be able to this summer but this bathing suit 100% made it possible. I feel incredibly sexy in it and confident. Only negative is it doesn't have an adjustable strap but the girls stay in place for the most part. I mean it's a bathing suit so I'm not going running in it or swimming laps in it. I've also gotten many looks and positive comments while wearing it which also boosts my confidence. The tummy control is okay... The black cover helps but I wish they had an option in selecting top size and bottom size because I probably could have been a smaller size on the bottom and kept my larger size on top. That might've helped with more tummy control but I also think it hits on a good spot on my hips. For reference I am a size 10/12 5'6" 38 year old woman and I have had two children in my 30s ■. The fabric is soft and durable and the

chest inserts don't move around a lot in the wash! If you want to feel confident in a bikini again get this!!

Super cute 2-piece bathing suit - the slits made me feel incredibly confident, while still covering my little tummy fat. The top is nice as you won't need to worry about it coming undone in any way - it slips on. There are removable pads inside the top. The bottoms are super cute with the adjustable scrunch on the sides. The material is well-made, and I don't expect the suit to fray anywhere. The suit is true to size - I got a medium, I'm 5'5 145 lbs. Taking a star off due to the placement of the circle rivets on the straps, they are placed in a spot that is right over the bottom portion of my shoulder blades, which is slightly uncomfortable and kind of scratchy. Each time I move, it catches on the underside of my shoulder blade. I also noticed that the slits can tend to roll if you hunch over or bend over.

The bottoms have nice coverage and come up high enough to hide the pooch without looking like a diaper like other high waisted ones. There are some small issues tho- the material used for the waistband and the band around the chest is really scratchy. If you have sensory issues it will drive you nuts. I plan on seeing a lining on it because it was really uncomfortable- the suit is cute enough to be worth the extra work. The top could offer a bit more coverage. I am a 38DD and there is a bit of spillage going on. Another inch of fabric in the center would have been amazing. It’s fine for sun bathing, but you won’t want to try actually swimming or bending over if you are over a B cup, unless you want to risk a rogue boob popping out. Not posting a pic because I don’t really want bathing suit pictures of me floating around in cyberspace. But- take my word for it that you will be hard pressed to find a more flattering two piece if you have a less than perfect body with a few areas you’d rather keep covered up.

Let me start by saying this suit is very flattering. I am in the process of losing weight, down 50# with another 50 more to go. I’m 5’9 and currently 225#, rectangle body shape (not much of a waist) and I ordered the XL which fit great. I love the fit of this suit. My only issue is the top is not full coverage. I’ve had a breast lift with implants and I was fighting a nip slip all day in this suit. I’m keeping it because it’s great for a chill day at the pool so I will get use out of it regardless. I’ll just have to be mindful of the girls ■

Received it very quickly and with no problems. Colour on this is just as vivid as it looks in the pictures! The bottoms fit really well, but like others have mentioned the top is kinda small. I got a 2XL bathing suite comes with a B-sized top?? I ended up having to take out the padding just so they didn't make me look flat-chested. Definitely worth the cost, but really wish I could have selected the cup size or the cup sized better matched the bottoms.

This is such a cute!! It’s perfect for a mom who still wants to wear a two piece but doesn’t want to worry about one wrong move playing with your kiddo and you have a wardrobe malfunction at the pool! The bottoms have nice coverage in the back and the band helps with tummy coverage so you can still wear a two piece without feeling self conscious. The only reason I gave this 4 stars was because I wish it came in mix and match sizes because I could have used a smaller size for the top but the adjustable straps helped so the top fit better.

Definitely enough muffin top to not want to wear it haha. Other than that I really did love the rest of the fit! And it’s really pretty! I suggest an hourglass figure. I hate hook on tops because they are a pain to hook and also the hook in the back can be uncomfortable for me laying in my float. It comes with inserts in the top that actually don’t slip around while swimming or washing. The bottoms are so comfortable. I like the tie option on the sides to have the suit fit the way you want. The banding on this is what sets the suit apart. This suit is WAY PRETTIER in person.

Ummm. This is the best swimsuit I’ve ever put on my body. I have been insecure about my body for a while after having my second baby. I have pretty bad diastasis recti and to be honest I rarely get to workout. Needless to say, I didn’t want to wear a two piece in fear of that belly smush sticking out. Even a once piece made me feel and look “pregnant”. This set is a GOD SEND. First off, the bottoms hug you perfectly. They sit on the perfect spot on my waist as to prevent the muffin top issue. It covers the entire problem area for me and snatches my waist. The bottoms are not cheeky but still cute. Rare find in the world of swimsuits. And the TOP?!?! Hello, hot stuff. The cleavage it gives is chefs kiss, without making me feel like I’m gonna slip out. I am 5’5, 145-150 lbs, 36D, leaner build. I ordered a size medium and it is perfection. Best amazon purchase I’ve ever made. Photo is accurate!

I am 5'4 165 and I purchased a large. I like the bottoms and how they fit my bum, the strings are a little annoying as they hang down a little too much, the waist is not as supporting as I expected it to be. They are not tight and cannot hold much in and it rolls down a litte as I was walking. The top is made for larger chested women; I am not that big and even tightening the straps all the way, it was a little loose and the padding is not enough for a smaller chest. I do like the material, its breathable and soft. Maybe I should have gone with a Medium even though then half my rear would hang out but then the top would fit better. . Another thing is it was supposed to arrive a day before and it was delayed. For the price I would not say it's worth it, as I have found others more supporting for less month. But I have to use it since It arrived the day I had to leave.

I really wanted to like this swimming suit, just too many cons for me. Note, I feel it runs small. I normally wear a 14 (L-XL) I ordered an XL, but I feel this suit a XXL would be better. I’m 180lbs (40 C/D, 37” waist, 45” hips). Pros: Beautiful blue and teal colors. I love the bottoms, perfect coverage and tummy control. Love the 2 inch band of elastic at the top of the bottoms. Quality appears and feels great, but since I didn’t wear or wash, can’t really give a definite quality assessment. Cons: the Top provides absolutely no support. If the girls are perky, you’re good to go. However, if gravity has taken hold, they don’t sit where they should and lack of support makes it not flattering. The bottom band does not have any elastic support so the material folds over and you can’t see it and it didn’t show off the teal color of the suit.

sizing. I bought a large. (Per Amazon‘s recommendation) the top is so loose around the edges it just makes my boobs look terrible. I would need a medium in the top and large in bottom I’m 36d size too. 128 weight. The bottom isn’t so bad but they should really sell these in separate sizes for tops and bottoms. There’s no way to adjust the top so the side spillage doesn’t happen. I really wanted to love it but I was even more disappointed after seeing the same design all over my recommended feed from different sellers now. Really nothing special. I liked the side feature in the bottoms to adjust them. I was going to return this,but tried tying the sides up differently and adjusting the top more then I did the first time for a better fit. I am 66, have had two c sections and like the tummy control and it is more age appropriate. I’m 5’0, 120 pounds, 38Cand got a small. My husband said 'buy one in every color' (I might). I was also surprised at how fast it dries. The material is not your typical thick swimsuit material, but it still holds everything in place. There were a few times I was worried about a nip slip. my tan line shows that the v neck of the bikini top came less than an inch to my nipple. I have small boobs that are far apart, so it ended up being fine. As a midsized girl with a big booty finding a supportive and flattering swimsuit is SO HARD. BUT THIS IS IT!!!!! You have found it!!!! For reference I am 160lbs, 5’5 The fabric: AMAZING. I got the textured fabric and it really covers up all the bumps I would like covered. So flattering. Thick, supportive, stretchy, and secure. The fit: overall, AMAZING. The bands are stretchy and thick, so they smooth things out and offer stability and support. I will say that the leg holes are a bit tighter on my body type, so if you don’t have as big of a butt I don’t think it will be a problem. It’s not a make-or break for me. The bottoms are decently full coverage. They do show some cheek on me but my booty always hangs out. The suit really shapes you and is still comfortable and trustworthy to go in the ocean or river! I have bought three of these bathing suits. The first was the blue and white striped one (size small.) It was in fact too small for me (I don't know what I was thinking), but I could recognize the excellent quality of the suit and the attractive design, so I gave the suit to my mother, who likes it very much. I bought a second suit for myself (the red one, size medium.) I love it. I've worn it 3 times so far this summer. It's comfortable, and it holds up well with washing (either by hand or on a gentle cycle.) So I decided to buy an additional alternative suit for myself (the green one, also size medium.) Unlike with the first two suits, this suit arrived WITHOUT the Yonique bag, WITHOUT a protective liner in the crotch area, and WITH four loose strings in the seams of the stitching. My assumption is that someone who usually wears a size large bought this suit prior to me, tried it on, stretched it out (damaging the stitching in the process), and returned the suit to Amazon without the bag and protective liner. Now why would Amazon/Yonique turn around and try to resell me this same suit? It's disgusting and unethical. In a perfect world I would give this suit 2.5 stars because you just don't know what you're going to get. I am being generous and giving 3 stars. If you do decide to purchase this suit, good luck.

I love the color and it was an easy buy when I needed a bathing suit last minute. As some of the other comments say, this doesn't fit the same as some of the others. I bought the black and the hot pink. The pink runs bigger which was nice on the bottoms but just weird on the top. Almost looks like it was stretched out but the seem under the chest is bigger so feels less supportive. I think it's a good back up bathing suit- not the best fitting but if you need something quickly - this is a good find.

3.0 out of 5 stars This tankini suit is made well

#452 · Amazon · 3.0 out of 5 stars · Reviewed in the United States on April 18, 2023

The fabric of two piece tankini suit is soft and made well and very comfortable. I purchased a medium and it was too big. I’m five feet three and the top was too long and the bottoms were loose around the legs. I returned it and purchased a small and it fits well. I haven’t worn it swimming yet so I’m not sure how it performs in water. The one odd thing is the tie around the neck. It goes through each side of the top triangles of the suit but behind your neck and then the loose ends are tied in back. Mine came with the tie put in wrong so that it would tie in the front of my neck. I figured out how to change this and it fits great. I would recommend this suit and I’m picky about how swimsuits fit.

3.0 out of 5 stars Cute Suit But That Smell...

I'm 5'5", 170 lbs, and I ordered a large. I love how this suit looks and feels. It's thick, seems to be well-made, and flattering. My main concern is the smell, which is pretty intense. The seller directly addresses the smell by saying it will go away with washing, and I think it eventually will. After two washings with a special product that is supposed to cut odor, I think the smell is slightly better. The smell is intense enough that the suit is currently unwearable, but I think with several more washings, it will be okay. I think chlorine will help too. I'm just not sure everyone will want to spend that much time cutting the chemical odor. But I still have hope that the suit will be salvageable. So, 3 stars for the cuteness and the cut.

I purchased a small based on the sizing and reviews but there is something along the side that is rough and irritating. I only tried this on for 10 min and felt the discomfort but perhaps it is just a manufacturing defect. It's possible I may need to size up. Biggest complaint is not receiving the bottoms

But I took tags off and wore it before I realized the straps had some extra elastic sticking out and it scratches my back like a tag. Very uncomfortable. Let me give the pros first. -great thick material that holds you in. Quality material. -cute cut but still covers everything and I feel like I can play with my kids and nothing slip out. Con but major issue. -I ordered a small and medium to check sizing. Small was a little snug so I kept the medium. I took the tags off and wore it to the pool. After about 10 minutes I noticed the edge of the straps were "scratching" me. I tried adjusting it but no success. It wasn't until I took it off and realized the elastic/rubber is exposed at the seam. This is not present on the small or black suit so it may just be a fluke. But I can't return it because I already wore it. The first photo shows the elastic that scratches. Second photo is the small suit, no elastic present. Hoping I can cut it down without messing up the seam and keep it from hurting.

Let me start off by saying this bathing suit is incredibly flattering and outside of the water I felt sooo good about myself!! HOWEVER I hope the one I received was a “one-off” because what happened inside the water was incredibly embarrassing and I literally had to have my husband hike back to our car to get my towel because there was no way in hell I was going anywhere uncovered. Long story short my bathing suit FILLED up with sand. I have NO idea how the hell it even happened or where it got in because I tried and tried and could not for the life of me, figure out how to get this sand out. It got trapped between the fabric and it’s not coming out. Of course after it was trapped in my breast area and stomach area it all quickly made its way to my PRIVATES area so I looked like a baby with a VERY full diaper. LOL I was mortified and like I said I tried everything short of cutting the bathing suit and it’s not coming out. You’ll see the photos I attached so I hope if you’re buying this bathing suit you don’t have plans of going to a beach with fine sand. you have been warned LOL If you’re going to a pool you’ll probably be fine! Other then that I will likely buy multiple colors because how beautiful it is, but I will never wear into the beach again LOL

First a little size related talk: I am 5'4, 32DDD, with a 29 inch waist & 37 hip. I bought the medium in that maroon color with the really deep v. It fits, mostly. The torso is a little long, so ifI give the straps a good tighten so nothing is a slip risk, the area designed for under the boobs starts to want to creep onto my boobs instead, just barely, but enough to feel weird. This is slso partially a factor of not well considered strap design. The x in the back then loops into the area under the breast to then make a horizontal strap. Again this means tightening pulls up, and not in a cleavage way, in a sitting a little oddly way. Would have been better to have them be seperate parts, allowing a tight tie around the waist so it could be customized to your fit needs. This suit would be gorgeous on someone with a long torso & smaller boobs. Not sure its made for me. One other factor- this one is stitched a little wonky at the v. One side tight, the other loose, creating a slight curve instead of a v. This creates a less beautiful shape, and allows a little gapping of the fabric, making it seem like a poorer fit than it is. This may be a single suit flaw though, I own several other cupshe suits that I adore. The strap design issue however will hold for everyone. Whether your body is accomodating to the flawed design is a factor on whether or not I'd suggest you try it

I'm 5'8", 140lbs and ordered a size Medium after reading tons of reviews & comparing the size chart to my own measurements. This suit is super cute and flattering, but unfortunately I found the elastic (especially around my back & legs) to be very tight and cut into skin. I almost reordered for a Large, but the top doesn't have much support for the chest and my smaller breasts (36B) were already swimming in the cups, so I'm afraid I'd be more easily exposed in a larger size. I would have loved this suit if the elastic wasn't so tight/restricting, so I am returning. Plus, I needed a suit for a pool party the following day, and a new size sadly wouldn't have arrived in time.

A few issues: -the color is not as shown. It’s darker. I was hoping for the lighter purplish gray. It’s more dark gray with a hint of blue/purple. -this is not “tummy control”. It’s more loose in the tummy than any one piece I have. The ruffling “hides” the belly some, but it’s not controlling. I’m not expecting shapewear, but I was expecting a little more tightness than a standard suit. That’s the biggest let down when it was purchased specifically for that. Maybe I misinterpreted what “tummy control” meant. A few positives: -it is very smooth in the back and did not show any imperfections back there -material seems fine, hoping it washes well -sizing seems right -straps are adjustable I’m not sure I would buy it again under the pretense that it has tummy control. If it didn’t have that listed, the only problem is the inaccurate color (or I was just sent the wrong one).

3.0 out of 5 stars Hard to pick the right size but nice quality

This is a beautiful swimsuit. I’m 5’0” 125lbs, 34D. I typically try to get bikinis with a small or extra small bottoms and a medium to large top. Which made picking a size difficult in a one piece. I think if you wear one pieces often this garment probably fits as expected. However, I rarely wear one pieces and wasn’t sure what to do when you need xs-s bottom, a medium top, and you’re very short. To avoid the swimsuit being too tight or not long enough in length for proper coverage, I ordered a medium. Overall, it fits pretty good. My husband likes it. The cleavage looks very nice and the rouching in the tummy area looks good and would hide and tummy issues or flab. My only issue is that it’s a little big for me, but I did order a size up figuring I’d rather have it a little too big than too small/tight. The butt area is a little baggy or you’re supposed to wear it like a high waisted type of thing which isn’t my style. So, this is not my favorite suit but I will keep it. If it shrinks just a little bit in the dryer it might end up being the perfect fit.

I am 5"8', but short torso and this fits nice. Its a bit cheeky and definitely only moderate coverage up top. I love these suits when new, but with regular use in a pool and washing they only last about 6 months before the fabric has lost most shape. The fabric is nice and the gathers across the belly do offer a bit of camouflage if you have a belly like I do. Lastly, this suit does not offer tummy control.

The leg holes are not high cut, which makes this a great suit for us older women, because we hate those high cut legs on most swimsuits. I made the straps as long as possible and it was still not long enough to fit me comfortably. It was wide enough and would have been great if the straps were longer. I ordered an XL and it seemed like the exact same size! Loosened straps all the way and it wasn’t any better. I’m not sure if there could have been a mistake and the wrong tag was put on, bc I swear it was the exact same size. It would never fit someone size 16/18 if it didn’t fit me. The length is not enough even for my short torso so the crotch and booty are uncomfortable. The top is also tiny and my breasts were definitely not stable in it! I returned it. Cannot wear as if I size up, the belly area will be far too loose.

I am 5'4, 118 pounds and a very saggy 32DDD/34DD, 2 pregnancies, the last being twins. This suit is really quite cute. Great quality, not cheap or thin or scratchy material. I bought it in "pink" size Small. The pink is a really nice color, just didn't go well with my skin tone... it blended in too much, not enough contrast. The fit of this suit is all over the place for me. The top fit great. The mid section, great in front, weirdly loose in the back along the lower scooping edge. Its small in the torso, which is odd bc I have a small torso. And in the rear, my cheeks were falling out. I don't necessarily need a full coverage rear, but this one was getting close to cheeky cut on me... Not my preference. All in all a pretty color & admirable style, just completely wrong for my shape.

I have bought this same suit, in different colors, for years now, so I know what to expect with this brand. Love the fit and coverage. This one though…. Received it balled up in a bag, so right away I knew it was a return. Fair enough, I'm going to wash it anyways. Upon further inspection, it's missing the tag, but the string where it's supposed to be is hanging there because someone definitely ripped it off, and not well. The hygienic liner is missing, gross, but you can see where it was, like there was something dirty there, but no liner, and the pads that are supposed to be in the cups for the chest are missing, which every other one of my same suits has, so aside from believing I paid $40 for a used bathing suit, the suits I already own and have worn many times are in better condition than the one I received today. This happens to often and quite frankly, it's disgusting.

Pros: Nice pattern. Good neckline shape. If only I was fitter… Cons: For being a “tummy control” swimsuit, I have three serious gripes. 1. The “tummy control” section is not strong enough. The fabric is just flimsy. I would call it a double-lined swimsuit than a true tummy-control swimsuit. 2. If you need tummy control, you’re also likely to need some love-handle control, right?? Well, the back half of the swimsuit is just one layer of material, which is thin just like the front. Even if the front was controlling my tummy well, the back shows every single lump I have. 3. If you want tummy control, you’re also likely to have a little extra booty, right?? Well this is cut for the booty I had when I was a fit teenager. Bottom line: if you are looking for a swimsuit to control any of your puffy parts (tummy, love handles, booty), keep searching, honey.

I’m 5’4”, 140lbs. In shape but not into bikinis after becoming a mom. I bought this in a medium and a large. Medium felt too tight. Large was too big. The color and material felt like it was good quality but it didn’t do anything for my figure. Really felt more like a “mom” swimsuit than a sexy one. I also have small boobs so maybe that was part of it too. I think more voluptuous women would do better in this suit.

3.0 out of 5 stars No tummy control, otherwise an okay swimming suit.

It's advertised as a tummy control swimming suit but I can assure you it is not. If tummy control is a deal breaker for you, I would pass on this suit if I were you. Aside from that, the color is exactly as pictured and it is well made.

Just slightly too snug and did not cover my booty as much as I would've liked

3.0 out of 5 stars Cute, not very supportive

This is a really cute bathing suit. Nice design. Not really supportive in the chest but definitely wearable. I was looking for an alternative to the more expensive Miraclesuits for tummy control. And, while this is wearable and cute, it's definitely case of you get what you pay for.

3.0 out of 5 stars Not for newer mommies.

This swimsuit was cute but not at supportive as I thought it would be. The top area felt baggy around the chest and being that I recently had a child I felt that it was just accentuating my new not-so-perky chest. If that’s not important to you then it could be a good option. Color was decent but not like the pictures. Tummy control was good but not much ruching where I would’ve like it.
